Keeping a Money Diary

Do you seem to run out of money all the time? If you find that you never seem to save money for special occasions like birthdays or a family vacation, what fun is that? One trick is to keep a money diary and find out just how you spend your money. Once you get started, you may find that you like keeping track of your money.

This can be as simple as keeping a handwritten journal in a spiral notebook. However you do it, be sure to write down:

- 1. All the money that comes in and where it comes from.
- 2. Where you spent your money and why you spent it.

Always date your entries, so you can see how often you spend. Make note of cash you cannot track. Over time this should happen less often if you get in the habit of saving receipts and keeping your diary.

Make sure to have some fun with it! If you spent money on movie, write a short review. What do you think of the new video game you bought last month? If you put some money you earned babysitting into your savings account, what are you saving for?
